

- (2) Applicants must provide evidence of acceptance into a recognized and suitable training program before the award can be granted.
- (3) The Fellow must return to his or her home country upon completion of approved training.
- (4) The Fellow must provide evidence of a guaranteed position in a medical institution upon return to the home country.
- (5) Fellows will receive a stipend from the Society such that, taking into account the home country and/or the host institution support that they may have, they achieve a \$22,500 US revenue.
- (6) Fellows must be able to read and speak the language of the host country. An interview may be required to assess verbal fluency.
- (7) Fellowships will be offered primarily for clinical training of one to two years duration.
- (8) Clinical training programs should be practical in their orientation, and applicable to the needs and conditions of the home country. The ability of the host institution to provide such training will be an important factor in the selection process.
- (9) Fellows must have received sufficient training in internal medicine or other fields to pass all host country examinations that are necessary to the care of patients. Fellowships may be awarded to senior individuals who seek additional training but, in general, preference will be given to younger physicians who are at the beginning of their permanent careers.
- (10) Specific instructions and the necessary application forms can be obtained by writing directly to Jan J. Weening, M.D., Academic Medical Center, Meibergdreef 9, 1105 AZ Amsterdam, The Netherlands.

Kidney International invites brief announcements of meetings, courses, workshops, and so forth, pertaining to nephrology. Please send the announcement, complete with dates, location of meeting, and correspondent's name, address, and phone number 7 months or more in advance of the time of the event. Announcements are inserted into the publication schedule when they arrive in the

Editorial Office until the month of the event. Announcements should be sent to the above-stated address for the Editorial Office in Little Rock, Arkansas, USA.

Erratum

Due to a production error in the April issue of *Kidney International*, Figure 1 in the article cited below was published upside down. At the author's request, it is reprinted here in the correct orientation. The Editors and Publisher regret the error.

Akaoka K, White RHR, and Raafat F: Glomerular morphometry in childhood reflex nephropathy, emphasizing the capillary changes. *Kidney International* 47:1108-1114.

Fig. 1. Representative tracing of a whole glomerular tuft (top) and the individual capillary lumens of the same tuft. (Modified from Fig. 1 of reference 20; used with permission of John Wiley and Sons, Ltd.).
